International Scholarship Program, National Society of Collegiate Scholars Member

PROFESSIONAL EXPERIENCE

Vivacity Tech PBC (EdTech)

Remote

Product Design Intern

Jan. 2026 - Apr. 2026

- Improved user workflow consistency across a live EdTech SaaS product by redesigning 20+ modals in Figma, translating design system standards into tangible UI improvements.
- Expanded a component library with 5 new components and 100+ variants, balancing design system constraints with the evolving needs of a cross-functional product team.

University of Oklahoma Math Center

Norman, OK

After Dark Supervisor

Oct. 2025 - Dec. 2026 (Expected)

- Maximized learning outcomes and balanced tutor workload for around 300 students each exam week by supervising and organizing nighttime exam reviews and study sessions.

Front Desk Assistant

Jan. 2024 - Dec. 2026 (Expected)

- Maintained concurrent oversight of in-person and virtual tutoring operations, providing comprehensive academic support to students enrolled in summer coursework and facilitating ALEKS examination preparation for incoming first-year students.
- Ensured the smooth functionality of the Math Center through effective communication of crucial operational information, including tutor absences, project progress, and general updates.

PROJECTS

Ralph Lauren Advertising Media Project

Norman, OK

Group Member (Budget & Audience Strategy)

Jan. 2026 - May 2026

- Developed a \$250M incremental media budget strategy targeting 20% YOY market share growth across e-commerce, full-price retail, and outlet channels.
- Developed the legacy consumer persona using MRI Simmons data, grounding the campaign's dual-audience strategy in psychographic research to balance Gen Z acquisition with high-value loyalist retention.

Math Center Check-In Kiosk Redesign

Norman, OK

User Researcher & UX Designer

Dec. 2025

- Leveraged 2 years of first-hand observation as a Front Desk Assistant to identify critical usability failures in the existing check-in flow, then prototyped a full UI redesign.
- Designed color-coded room navigation with explicit accessibility labels and an admin panel enabling staff to manage operations without technical support.
